ABSTRACT

The statistics presented in this report were compiled from the annual statistical report forms sent to all North Dakota public libraries by the State Library Commission. Summaries are presented for the eight library regions of the state and for each public library within the regions. For individual libraries data includes population served; income from local tax support and/or government grants; a breakdown of operating expenditures; totals of adult and juvenile collections; totals of books, serials, and various types of non-print media; operating hours; and bookmobile service. Population figures are from the 1970 census or later special census surveys. Taxable valuation and local tax levy figures are from the North Dakota State Tax Department. (Author/SL)
